## TERM 2 AT RWPS THEIRCARE

Term 2 has been a blast! Full of growth, development and fun. We have loved every minute of the children enjoying the activities, food and incorporating their input into the service.

We would like to introduce you to some of our new spaces. We crafted these learning and development zones to be purposeful and engaging for all the children. We hope that every child feels a sense of belonging when they are welcomed into our space everyday with the use of these new resources to support that.

## CALM CORNER

The calm corner provides a place for children to unwind after a big day at school, or somewhere to gradually wake up in the morning.

The children have loved all the squishy toys and the cosy blankets. We welcome children to read books, have a rest on the couch or play quiet games in this corner of relaxation.

## CONSTRUCTION ZONE

We love tractors! Tractor toys, tractor books, tractor activities, we love it all. Here you will find the lego table where children love to build skyscrapers. The train table, for constructing the longest train-set you've ever seen! As well as the diggers and fire truck, children play with resources outside too!

## DRESS UPS AND DOLL HOUSE

Welcome to our wardrobe full of all the children's favourite characters! The biggest hits have been Pikatu, Elsa, Firefighter, Mario and the Mermaid. This space promotes imaginative and role play, for all children to get involved in. Their acting skills are incredible!

Look forward to see you on the winter holiday program! Bookings now open via [www.theircare.com.au](http://www.theircare.com.au)
